

SIDDHARTH VERMA

Cloud Support Engineer | siddharth.v@email.com | +91 98765 67890

PROFESSIONAL SUMMARY

Detail-oriented Backend and Systems Engineer specializing in cloud infrastructure, containerization, and relational databases. Experience executing scripts for system deployment optimizations.

TECHNICAL SKILLS

- Languages:** Python, Bash, Java
- Databases & Storage:** SQL, MongoDB, Redis
- Cloud & DevOps:** Amazon Web Services (AWS), Docker, Kubernetes
- Operating Systems:** Linux (Ubuntu, CentOS), Windows Server

PROJECTS

Automated Cloud Infrastructure Backup

Python, AWS, SQL

- Engineered a custom Python script that securely triggers automated snapshots across production application databases.
- Optimized query extraction routines inside corporate relational SQL servers to structure backups efficiently.
- Configured secure bucket architectures inside AWS to compress and store archived operational metrics.

EDUCATION

B.Tech in Computer Science

DY Patil University, Pune

Graduation: 2026
