

NEHA KULKARNI

Data Analyst Intern | neha.k@email.com | +91 98765 54321

PROFESSIONAL SUMMARY

Analytical undergraduate researcher focused on processing large datasets and implementing mathematical modeling techniques to isolate operational anomalies.

TECHNICAL SKILLS

- **Data Processing:** Pandas, NumPy, OpenPyXL
- **Core Methodologies:** Machine Learning, Statistical Analysis, Linear Regression
- **Visualization Tools:** Tableau, PowerBI, Seaborn
- **Languages:** R, MATLAB

PROJECTS

Retail Pattern Clustering Matrix

Pandas, Machine Learning

- Leveraged the Pandas library to load, clean, and isolate millions of transaction records from messy comma-separated matrices.
- Deployed traditional unsupervised machine learning clustering models to segment core business clients.

EDUCATION

B.Tech in Artificial Intelligence & Data Science

Graduation: 2027

MIT Academy of Engineering, Pune
